

## Galileo<sup>®</sup> Delta A TiltTable

**Muscle therapy for patients who are unable to stand without support.**

The Galileo Delta series enables users that are unable to stand to benefit from the therapy success with Galileo. The primary therapy targets are the improvement of the muscular status of the legs and trunk, the alleviation of contractions and the stimulation of blood circulation. The motor driven adjustable tilt angle of the Galileo Delta TiltTable (90°) allows vibration therapy with reduced body weight from 0 to 100%. Includes a remote control to control the base unit, for step less adjustment of the TiltTable and to control the wobble mode.

TECHNICAL DATA	
Type number	9N0550 02 01
Classification	Professional / Home
Medical product	Yes
Certificate	CE0123
Holding possibility	xxxxxx
Ext. Control panel	No
Integr. Control panel	Yes
Remote control	Yes
Frequency (from/to)	5..33 Hz
Amplitude (from/to)	0..+/-3.4 mm
Max. Acceleration	12.3 g
Stroke	6.8 mm
Footplate (l/w)	21.5 x 14 in
Dimensions (l/w/h)	94 x 27.5 x 37 in
Total weight	245 lbs
Max. Load	265 lbs
Smart Coaching	No
Wobble function	Yes
Option and accessories	Castors Standard (460 Euro)
